

SMARTGUARD™ TEMPORARY PANEL COVERS

TEMPORARY ELECTRICAL PANEL COVERS

SMARTGUARD™ PRODUCTS

OSHA Accepted Temporary Electrical Breaker Box, Panel and Load Center Covers.

SmartGuard's Temporary Panel Covers provide protection at construction sites, maintenance and service work, TI'S and retrofits. These safety covers are easy to install and remove, reusable and recyclable. Sold across America, our standard stock of 14", 20" and 22" wide Temporary panel covers satisfy **OSHA** safety and onsite use standards. (Available in custom sizes).

Features and Benefits of Our Temporary Panel Covers:

There are numerous benefits to using our **OSHA** accepted temporary electrical safety panels. Ensuring the health and safety of workers is a top priority. Made from sturdy clear **PVC**, these are water resistant, puncture resistant and have great flame and nonconductive characteristics. Our covers meet **UL Standard 514C (Dielectric Strength & Flammability)**, material is Certified **ASTM standard D1790 & D638 (Impact & Tensile Strength)**, and SmartGuards Temp. Panel Covers come complete with **ANSI** safety warning, **UL** and **ASTM** labeling and magnets 4 sides.
