

SmartGuard™

Push Fit Tool-Free Device Cover

**DCP-2P
2 Gang Receptacle Cover w/Pins**

SmartGuard™

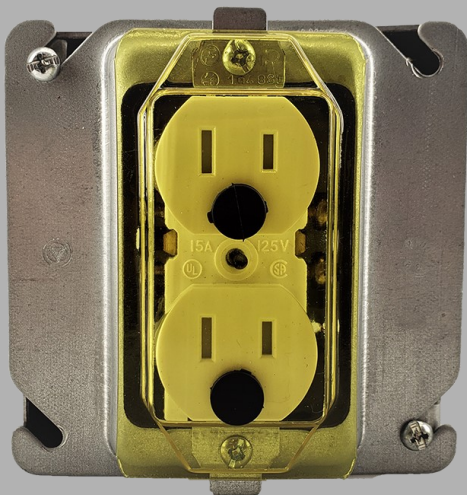

Tool-Free Device Cover

INSTALLS IN SECONDS

Simply push the rivets into the ground lugs - the cover is now securely set for safe transport and onsite job conditions. Made with translucent yellow PVC, these covers are strong, durable and completely router proof. Available in up to 6 gang.

DCP-2PD
2 Gang GFCI/Decora Receptacle Cover
w/pins

DCP-1P
1 Gang Receptacle Cover w/Pins

Added as an option to our standard Receptacle and GFCI Covers, we now include Made-in-America, ribbed rivets, preinstalled for the easiest and quickest way to safely and securely protect your electrical devices at pre-fab shops and for general protection from paints, textures and wall coverings.

Simply push the rivets into the ground lugs - the cover is now securely set for safe transport and onsite job conditions.
